Profile Summary

Full Stack Developer with 2 years of experience building scalable MERN stack applications using React.js, Next.js, Node.js, Express.js, MongoDB, MySQL, and AWS. Skilled in developing responsive user interfaces, RESTful APIs, cloud deployments, authentication systems, and production-ready web applications across, real estate, IT, and ONDC Domains.

Experience

Delve Professionals Pvt. Ltd. **March 2026 – Present**
Software Developer *Rohtak*

- Develop scalable web applications across real estate, IT, and enterprise domains using React.js, Next.js, Node.js, Express.js, AWS, and MongoDB.
- Built responsive frontend interfaces, secure REST APIs, admin dashboards, and lead management systems for production-ready platforms.
- Managed AWS deployments, SSL setup, domain configuration, SEO optimization, and production debugging for live applications.
- Collaborated with cross-functional teams to improve application performance, user experience, scalability, and system reliability.

Qvolv Technologies Pvt. Ltd. **July 2025 – March 2026**
Full Stack Developer *Noida*

- Contributed to a multi-tenant educational management platform serving schools, universities, and industry partners.
- Designed scalable backend APIs, optimized MySQL schemas, and implemented JWT authentication with RBAC.
- Developed role-based dashboards, LMS modules, content management workflows, and responsive frontend interfaces.
- Improved debugging, testing, and performance optimization for scalable production features.

SequelString AI Pvt. Ltd. **December 2024 – June 2025**
Full Stack Developer Intern *New Delhi*

- Worked on multiple ONDC domains including Agriculture, Retail, Mobility, Bids & Auctions, and Life Insurance.
- Developed workflows for product ordering, bidding systems, insurance purchase flows, trip booking, and retail order management.
- Contributed to backend services, API integrations, database operations, and business logic implementation.
- Assisted in building the Reconciliation and Settlement Framework (RSF) for transaction reconciliation and settlement management.

Projects

Kohinoor Properties Dubai | View | *React.js, Next.js, Node.js, Express.js, MongoDB* **2026**

- Developed a responsive Dubai real estate platform featuring property listings, advanced search and filtering, and detailed property pages for buyers and investors.
- Built reusable frontend components using React.js and Next.js, ensuring responsive layouts, intuitive navigation, and a seamless user experience.
- Developed backend REST APIs using Node.js and Express.js, integrated MongoDB for property data management, and implemented property enquiry workflows and database operations.

Compass Technologies Dubai | View | *Next.js, Tailwind CSS* **2026**

- Developed a responsive corporate website for a UAE-based IT services company with modern UI and business-focused design.
- Built reusable frontend components and optimized layouts using Next.js and Tailwind CSS.
- Implemented SEO optimization and deployment configurations for production readiness.

Bluefin Realty | View | *React.js, Next.js, Node.js, MongoDB* **2026**

- Developed a scalable real estate platform enabling dynamic property listings, streamlined lead generation workflows, and responsive business pages for improved user engagement.
- Implemented dynamic UI components and integrated backend APIs for seamless data handling and user interaction.
- Improved SEO, responsiveness, and overall performance across devices.

TradeHubFX | View | *React.js, Next.js, Node.js, MongoDB, AWS* **2026**

- Developed a forex trading platform with a responsive UI, market-driven sections, and optimized user workflows for improved usability and performance.
- Built scalable frontend components and secure backend APIs using React.js, Next.js, Node.js, and Express.js.
- Managed AWS deployment workflows, SEO optimization, and production environment configuration.

ONDC Multi-Domain Platform | *Node.js, Express.js, React.js, MongoDB* **2025**

- Built scalable workflows aligned with ONDC standards across retail, agriculture, mobility, auctions, and insurance domains.
- Developed secure backend integrations, API services, and business logic for multiple ONDC ecosystems.
- Worked on database management, reconciliation workflows, and transaction handling systems.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, Framer Motion
Backend: Node.js, Express.js, REST APIs, JWT Authentication, RBAC
Databases: MongoDB, MySQL, PostgreSQL, Sequelize ORM, Mongoose
Cloud & DevOps: AWS (EC2, S3, IAM), Vercel, Netlify, CI/CD, SSL, SEO Optimization
Tools: Git, GitHub, Postman, VS Code, Docker

Education

Maharshi Dayanand University **Rohtak, Haryana**
Master of Computer Applications (MCA) – 72.1% *2022 – 2024*

Training

QSpiders **June 2024 – Nov 2024**
Full Stack Development Training
